USSR INSTRUMENTS AND SCALES FOR INDUSTRIAL AND LABORATORY USE

ELECTRICAL MEASURING INSTRUMENTS -- Kiev, Pravda Ukrainy, 29 Aug 52

The Kiev Tochelectropribor Plant produces 40 different electrical measuring instruments for USSR construction projects. The plant has filled all 1952 orders for the Stalingrad GES and the Kuybyshev GES projects 4 months ahead of schedule.

On 28 August, the plant completed building the first three indicating gauges for the locks of the South Ukrainian Canal. By the end of August, the plant will have completed three more of these indicating gauges.

MOSCOW STATE UNIVERSITY RECEIVES 400 INSTRUMENTS -- Yerevan, Kommunist, 10 Sep 52

Recently, the Tbilisi Gidrometpribor Plant shipped to the Moscow State University imeni Lomonosov 400 instruments of various types, including an instrument for measuring the rate of flow of water in a river or other body of water, an instrument (bagometr) for determining the types of deposits at the bottom of a river or other body of water, ground drills for determining the humidity and depth of frozen soil, snow gauges, and precipitation meters.

DEVELOP TEMPERATURE AND HUMIDITY REGULATOR -- Tallin, Sovetskaya Estoniya, 10 Sep 52

The Tallin KIP Control and Measuring Instruments Plant has developed an automatic regulator of temperature and humidity for use in tobacco industry enterprises.

BUILD HEAVY-DUTY SCALES -- Kiev, Pravda Ukrainy, 30 Aug 52

The Kiev Scales Plant imeni Dzerzhinskiy is supplying heavy-duty automatic scales for the Kuybyshev, Stalingrad, and Kakhovka GES projects. Eight plants equipped with these scales have delivered over one million cubic meters of concrete to the Volga-Don construction project.

COMPLAIN OF LOW-QUALITY PRODUCTS AND PRODUCTION LAGS -- Tallin, Sovetskaya
Estoniya, 24 Sep 52

The Tallin ZIP Scales and Measuring Instruments Plant, Ministry of Local and Shale Chemical Industry, is not fulfilling its production plan. The ministry and its metallurgical bureau are not taking any steps to modernize the plant and its technical equipment. The plant does not have a foundry and therefore depends on the Tallin Pioneer Plant and the Tartu Vyvt and TAV plants for the castings used for building water meters and scales. Many of the products from these plants are defective. In 1952, the Pioneer Plant supplied 10,173 low-quality products, the Vyvt Plant supplied 6,000 low-quality products, and the Il'marine Plant supplied 48,000 low-quality products. These plants are also failing to fill their quotas. In July, the TAV Plant, with a quota of 2,900 items, delivered only 1,220 items, and the Vyvt Plant, with a quota of 2,600 items, delivered only 344 items, half of which were defective.

The Tallin ZIP Plant does not have enough tools, spare parts for machine tools, abrasive products, chucks, cutters, reamers, drills, and taps to assure continuous production.

ANNOUNCE SALE OF SCALES -- Vil'nyus. Sovetskaya Litva, 27 Sep 52

The Ministry of Machine and Instrument Building announces the sale of the VTsR-500 dial indicating scales designed for quick and automatic weighing of goods from 25 to 500 kilograms in weight. The scales have a graduated balance beam calibrated in 0.5 kilogram with a weighing capacity of 50 kilograms. The size of the platform is 800 - 1,000 millimeters. The dimensions of the scales are as follows: length, 1,150 millimeters; width, 1,210 millimeters; height, 2,000 millimeters; and weight, 290 kilograms.

Dial-indicating scales are built for special orders as follows:

<u>Designation</u>	<u>Load Capacity</u> (tons)	<u>Size of Platform</u> (mm)
Merchandise	2	1,120 x 1,120
Merchandise	3	1,470 x 1,470
Automobile	10	5,500 x 2,500
Automobile	25	12,000 x 3,000
Automobile	25	7,500 x 3,000
Weighbridge	5	2,200 x 1,100
Weighbridge	10	2,200 x 1,100

Orders are to be sent to the following address: Vil'nyus, Ulitsa Gor'kovo, 22, Glavmashpriborsbyt (Main Administration for Sales, Ministry of Machine and Instrument Building) Store.

The store sells the following: measuring instruments, laboratory utensils, sewing machines, spare parts, and clocks of all trademarks. -- Advertisement
